Contents

NUMBER 1, JANUARY 1993

1 *J. Bevenius, P. L'Estrange, S. Karlsson and G. E. Carlsson:* Idiopathic cervical lesions: *in vivo* investigation by oral microscopy. A pilot study

11 *A. R. Grieve, W. P. Saunders and A. H. Alani:* The effects of dentine bonding agents on marginal leakage of composite restorations — long-term studies

19 *O. Sykora and E. J. Sutow:* Posterior palatal seal adaptation: influence of processing technique, palate shape and immersion

33 *P. G. T. Howell, S. Ellis, C. W. L. Johnson, I. B. Watson and I. Klineberg:* The recording and analysis of EMG and jaw tracking. II. reproducibility of jaw tracking

45 *J. R. Heath, J. H. Jordan and D. C. Watts:* The effect of time of trimming on the surface finish of anterior composite resins

53 *C. W. Drake and J. D. Beck:* The oral status of elderly removable partial denture wearers

61 *W. A. Brantley and R. E. Kerby:* Thermal diffusivity of glass ionomer cement systems

69 *K. Ogata, M. Okunishi and T. Mikaye:* Longitudinal study on forces transmitted from denture base to retainers of lower distal-extension removable partial dentures with conus crown telescopic system

79 *K.-H. Chung:* The properties of metal-reinforced glass ionomer materials

89 *A. N. Stokes and J. A. A. Hood:* Impact fracture characteristics of intact and crowned human central incisors

97 *S. Masumi, M. Arita, M. Morikawa and S. Toyoda:* Effect of dental metals on magnetic resonance imaging (MRI)

107 *I. Lewinstein:* The ratio between vertical and horizontal changes of impressions

NUMBER 2, MARCH 1993

115 *P. Hammond, J. C. Davenport and A. J. C. Potts:* Knowledge-based design of removable partial dentures using direct manipulation and critiquing

125 *A. Johansson, T. Haraldson, R. Omar, S. Kiliaridis and G. E. Carlsson:* A system for assessing the severity and progression of occlusal tooth wear

133 *S. Inokoshi, G. Willems, B. Van Meerbeek, P. Lambrechts, M. Braem and G. Vanherle:* Dual-cure luting composites. Part I: filler particle distribution

147 *H. J. A. Meijer, F. J. M. Starmans, F. Bosman and W. H. A. Steen:* A comparison of three finite element models of an edentulous mandible provided with implants

159 *A. P. Slagter, F. Bosman and A. Van der Bilt:* Comminution of two artificial test foods by dentate and edentulous subjects

177 *H. Murata, H. Iwanaga, N. Shigeto and T. Hamada:* Initial flow of tissue conditioners — influence of composition and structure on gelation

189 *W. Niedermeir:* Parameters of tooth mobility in cases of normal function and functional disorders of the masticatory system

203 *K. Ogata:* Longitudinal study on torque around the sagittal axis in lower distal-extension removable partial dentures

213 *C. J. Arcoria, M. G. Lippas and B. A. Vitasek:* Enamel surface roughness analysis after laser ablation and acid-etching

225 *S. J. Wilson and H. J. Wilson:* A method for the estimation of traces of chlorhexidine in water

223 *O. A. Sarhan and K. M. Al-Balkhi:* Geometrical interpretation for abnormal facial behaviour with possible correction of angle S-N-A and S-N-B

NUMBER 3, MAY 1993

241 *P. K. Vallittu:* Effect of some properties of metal strengtheners on the fracture resistance of acrylic denture base material construction

249 *M. J. Woolford and A. R. Grieve:* The use of intermediary resins when bonding glass polyalkenoate (ionomer) cement to composite resin

257 *A. I. Abdalla and C. L. Davidson:* Comparison of the marginal and axial wall integrity of *in vivo* and *in vitro* made adhesive class V restorations

271 *V. F. Ferrario, C. Sforza, A. Miani, A. D'Addona and E. Barbini:* Electromyographic activity of human masticatory muscles in normal young people. Statistical evaluation of reference values for clinical applications

281 *F. Müller, M. R. Heath, E. Kazazoglu and M. P. Hector:* Contribution of periodontal receptors and food qualities to masseter muscle inhibition in man

291 *C. L. Davidson, A. I. Abdalla and A. J. De Gee:* An investigation into the quality of dentine bonding systems for accomplishing a durable bond

301 *C.-S. Shi, G. Quyang and T.-W. Guo:* Relationship between mean power frequency and potential of human masticatory muscles at rest position and clenching

311 *S. J. Wilson and H. J. Wilson:* The release of chlorhexidine from modified dental acrylic resin

321 *M. F. Lyons, M. E. Rouse and R. H. Baxendale:* Fatigue and EMG changes in the masseter and temporalis muscles during sustained contractions

333 *J. A. Kaidonis, L. C. Richards and G. C. Townsend:* Nature and frequency of dental wear facets in an Australian Aboriginal population

341 *K. Ogata and N. Watanabe:* Longitudinal study on torque transmitted from denture base to an abutment tooth of lower distal-extension removable partial dentures with conus crown telescope system.

349 **Book reviews**

NUMBER 4, JULY 1993

353 *P. R. L'Estrange, J. Rowell and M. J. Stokes:* Acoustic myography in the assessment of human masseter muscle

363 *J. R. Heath, T. K. Boru and A. A. Grant:* The stability of temporary prosthetic base materials I: Introduction, angular changes and dimensional stability

373 *C.-S. Shi and Y. Mao:* Elementary identification of a gnathosonic classification using an autoregressive model

379 *T. M. Wanis, E. C. Combe and A. A. Grant:* Measurement of the viscosity of irreversible hydrocolloids

385 *K. Ogata, A. Ishii, K. Shimizu and N. Watanabe:* Longitudinal study on occlusal force distribution in lower distal-extension removable partial dentures with conus crown telescope system

393 *A. Azouka, R. Huggett and A. Harrison:* The production of shellac and its general and dental uses: a review

401 *Y. Schalk-Van Der Weide, W. H. A. Steen and F. Bosman:* Taurodontism and length of teeth in patients with oligodontia

413 *D. Kohavi:* Complications in the tissue integrated prostheses components: clinical and mechanical evaluation

423 *S. Üçtaşli, H. J. Wilson and L. Zaimoğlu:* Variables affecting the fracture toughness of resin-based inlay-onlay systems

433 *H. C. Karkazis, A. Kossioni, M. R. Heath and J. D. Van Willigen:* Anterior digastric muscle responses to sudden unloading of the mandibular elevator muscles in younger and older adults

441 *T. Nagasawa, Y. Yuasa, K. Tsuga and H. Tsuru:* Reproducibility of tooth tapping rhythm in young and elderly dentate subjects

449 **Book reviews**

454 **Announcement**

NUMBER 5, SEPTEMBER 1993

455 *A. G. B. Mentink, R. Meeuwissen, A. F. Käyser and J. Mulder:* Survival rate and failure characteristics of the all metal post and core restoration

463 *A. Johansson, R. Omar, K. Fareed, T. Haraldson, S. Kiliaridis and G. E. Carlsson:* Comparison of the prevalence, severity and possible causes of occlusal tooth wear in two young adult populations

473 *A. Sheikholeslam, K. Holmgren and C. Riise:* Therapeutic effects of the plane occlusal splint on signs and symptoms of craniomandibular disorders in patients with nocturnal bruxism

483 *R. G. Craig and K. T. Johnson:* Accuracy of models for indirect posterior restorations

491 *M. Blom, I. Dawidson and B. Angmar-Månsson:* Acupuncture treatment of xerostomia caused by irradiation of the head and neck region: case reports

495 *A. Segura and K. J. Donly: In vitro* posterior composite polymerization recovery following hygroscopic expansion

501 *M. Meunissier, A. Meunier, P. Carpentier, R. Marguelles-Bonnet and J. P. Yung:* Disc movements over the condylar head. Radiographical study on autopsy materials

517 *J. R. Heath, T. K. Boru and A. A. Grant:* The stability of temporary prosthetic base materials II: water sorption and its effects

525 *S. Yamashita, M. Ai and H. Mizutani:* A new method for measuring nocturnal tooth contacts

533 *P. K. Vallittu:* Comparison of two different silane compounds used for improving adhesion between fibres and acrylic denture base material

541 *M. Blom, T. Lundeberg, I. Dawidson and B. Angmar-Månsson:* Effects on local blood flux of acupuncture stimulation used to treat xerostomia in patients suffering form Sjögren's Syndrome

549 *J. Stefanac, S. J. Chaconas, A. A. Caputo and J. Griffith:* Photoelastic evaluation of the standard bionator appliance

NUMBER 6, NOVEMBER 1993

561 *P. J. J. M. Plasmans and M. A. Van 'T Hof:* A 4-year clinical evaluation of extensive amalgam restorations — description of the failures

571 *G. Hoad-Reddick and J. R. Heath:* The carer's perspective: results of a survey of attitudes to dental care in 250 residential homes in Manchester

577 *A. G. B. Mentink, N. H. J. Creugers, R. Meeuwissen, P. J. B. Leempoel and A. F. Käyser:* Clinical performance of different post and core systems — results of a pilot study

585 *J. W. Osborn:* A model to describe how ligaments may control symmetrical jaw opening movements in man

605 *A. M. Khan, N. Satou, H. Shintani, M. Taira, K. Wakasa and M. Yamaki:* Effects of post-curing by heat on the mechanical properties of visible-light-cured inlay composites

615 *H. Toyooka, M. Taira, K. Wasaka, M. Yamaki and M. Fujita:* Radiopacity of 12 visible-light-cured dental composite resins

623 *Z. Weschler and I. Gedalia:* Solubility of irradiated rat molar teeth

627 *J. R. Heath, T. K. Boru and A. A. Grant:* Temporary prosthetic base materials: reproduction of surface detail

631 *Y. H. Chong, G. Soh and K. C. Lim:* Effect of loading and syringing on void formation in automixed addition silicone elastomers

637 *O. Vojinović and J. Vojinović:* Periodontal cell migration into the apical pulp during the repair process after pulpectomy in immature teeth: an autoradiographic study

653 *H. Miyawaki, M. Taira, K. Wakasa and M. Yamaki:* Dental high-speed cutting of four cast alloys

663 **Book reviews**

665 **Index to Volume 20**
